

檔案：`urpo_tempDB.js` 與 `urpo_tempServer.js`

`html script` 加入即可，例如：

```
<script src='js/urpo_tempDB.js'></script>
<script src='js/urpo_tempServer.js'></script>
```

Function 用法：

GET_USER() (URPO)

```
[ { 'name': String,
  'username': String ,
  'password': String ,
  'EMPID': String ,
  'search_history': [ { 'search_condition': Object, 'date': DATE }, ... ],
  'Profile': String (url),
  'memo': String,
  'Draft_ID': [ draft id (String), String, ...] (e.g. ['130847', '193713'] ),
  'role': 'URPO'      // 用role設權限
}, {...}, ...]
```

GET_LASTUPDATE()

```
[ {"project_id": String (e.g. '000000'),
  "edit_state": {
    "add_or_edit": "edit" or "add",
    "edit_person": "林岳暉",
    "edit_column": "Project_Description"
  }
}, {...}, ...]
```

POST_LASTUPDATE(*data*)

`data` 格式要跟上面寫的一致，如果成功的話會把你剛才傳的`data`回傳給你。

GET_PM()

```
[{ "name": String ,
  "username" : String ,
  "password": String ,
  "EMPID": String (e.g. "91830"),
  "Project_ID": [ project id (String), String, ...] (e.g. ['130847', '193713'] ),
  "Draft_ID": [ draft id (String), String, ...] (e.g. ['130847', '193713'] ),
  "Profile": String (url),
  "memo": String,
  "role": 'PM'           // 用role設權限
}, {...}, ...]
```

GET_DRAFTLIST()

全部都是**String**

```
[{
  "Category": "BUBG",
  "Dept": "DSBU",
  "Project_Name": "電影院固態光源投影機之波長分工模組開發",
  "Project_Description": "",
  "Edit_Date": "2003-03-03T03:03:30.303Z",
  "Project_Owners": [
    {
      "Name": "黃俊杰",
      "EmpID": "457326"
    },
    {
      "Name": "雲",
      "EmpID": "20"
    }
  ],
  "Region": "Taiwan",
  "Institution": "NCU 中央大學",
  "Competence": "",
  "Principal_Investigators": [
    {
```

```

        "Name": "郭倩丞",
        "Email": "cckuo@ncu.edu.tw",
        "Website": "www.me.ncu.edu.tw/Faculty/faculty-more.php?id=74"
    },
    {
        "Name": "李正中",
        "Email": "cclee@dop.ncu.edu.tw",
        "Website": "www.dop.ncu.edu.tw/cclee"
    }
],
"Collaboration_Model": "3 Targeted Research - Joint Lab",
"Project_Agreement_Status": "4 Project Agreement Signed",
"memo": "DDeellTTaa",
"edit_state": [
    {
        "add_or_edit": "add",
        "edit_person": "How",
        "edit_column": "Institution|Region|Dept|Collaboration_Model"
    },
    {
        "add_or_edit": "edit",
        "edit_person": "Jerry",
        "edit_column": "file system|Dept|Project_Name|Institution"
    },
    {
        "add_or_edit": "edit",
        "edit_person": "Ivy",
        "edit_column": "memo|Dept|Collaboration_Model|Category|Project_Owners"
    }
],
"file_system": {}
}, {...}, ...]

```

POST_DRAFTLIST(*data*)

格式要和 GET_DRAFTLIST() 列的格式一樣，否則會給予 Error，成功的話會把該筆 **data** 回傳給你。

data格式example：

```
{  
  "Category":"URPO",  
  .....//以此類推
```

GET_PROJECTLIST()

```
}
```

全部都是String

```
{  
  "id":"00000",  
  "Category":"URPO",  
  "Dept":"Life Science",  
  "Project_Name":",",  
  "Project_Description":",",  
  "Estimated_Start_Date":",",  
  "Estimated_End_Date":",",  
  "Region":"Taiwan",  
  "Institution":"CMU 中國醫藥大學",  
  "Competence":",",  
  "Collaboration_Model":"0 Undecided",  
  "Project_Agreement_Status":"2 NDA Signed",  
  "Currency":"NTD",  
  "Cash_Funding":",",  
  "Project_Owners":[{"Name":"林岳暉","EmpID":"622828"}],  
  "Principal_Investigators":[{"  
    {  
      "Name":"邱俊誠",  
      "Email":"T17988@mail.cmu.h.org.tw",  
      "Website":",",  
    }  
  ],  
  "Milestone">{
```

```
    "name": "Planning",
    "start_time": "Planning",
    "end_time": "Planning",
    "status": "",
    "description": "",
    "file": [
        {
            "file_name": "tmp.txt",
            "file_path": "/dir1/dir2/tmp.txt"
        },
        {
            "file_name": "tmp2.txt",
            "file_path": "/dir1/dir2/tmp2.txt"
        }
    ]
},
"edit_state": [
    {
        "add_or_edit": "edit",
        "edit_person": "林岳暉",
        "edit_column": "Project_Description"
    },
    {
        "add_or_edit": "add",
        "edit_person": "Joan",
        "edit_column": "Project_Name"
    }
],
"file_system": {},
"memo": "Hello world!!!"
}, {...}, ...]
```

POST_PROJECTLIST(*data*)

格式要和 GET_PROJECTLIST 列的格式一樣，
否則會給予 Error，成功的話會把該筆 **data** 回傳給你。

*** 特別注意：project 編號 id 不用給，系統會自動給予一個id**

data格式example：

```
{  
    "Category":"URPO",  
    .....//以此類推  
}
```
